Music Books

Each music book is available in two versions: one in C tuning and one in E⁷ tuning. That way, you can move seamlessly from one song to the next without having to change levers. As with all Simply the Harp publications, lever changes for accidentals are kept to a minimum. (Most songs do not have any.) For pedal harpists, the C tuning books are best.

Each book in the **Lead Sheet Basics Series** includes lead sheets & lovely arrangements of 40/44 songs. In addition to the arrangements, there are instructions for using a lead sheet, examples of left-hand patterns, and worksheets for your own arrangements. Even if you don't make your own arrangements (yet), you'll find these books to be of great value – 40+ arrangements in each book!
